PERSONAL PROFILE

Enthusiastic Front-End Developer with hands-on experience in building user-friendly interfaces. Proficient in HTML, CSS, and JavaScript, with a knack for turning designs into responsive web applications. A quick learner with a passion for staying updated with the latest industry trends. Eager to contribute to a collaborative team and create impactful digital experiences.

PROFFESSIONAL EXPERIENCE

Software Engineer
Polus Solutions private limited
06/02/2023 - 20/10/2023

- Translated design mock-ups and wireframes into pixel-perfect, standards-compliant HTML, CSS, and JavaScript code.
- Collaborated closely with the design and back-end development teams to ensure the integration of user interface and functionality.
- Successfully delivered projects on time, meeting strict deadlines, and ensuring client satisfaction.
- Able to implement the multiple npm package.
- Worked on the cron jobs and displayed the cron job to the UI in calendar view.

PROJECT

E-commerce Website

"Developed and implemented a full-featured e-commerce website using the MEAN stack (MongoDB, Express.js, Angular and Node.js). Utilized the power of JavaScript for both the server and client-side.

Bank Application

"Developed a simple banking application using MEAN stack (MongoDB, Express.js, Angular, Node.js) that allows users to manage their bank accounts, view transactions, and perform online transactions and account balance check."
